Mokena Residents Urged To Send In The Questionnaires

Through the Mokena Civic association, questionnaires have been sent to Mokena residents for the purpose of getting an expression from them as to how, if at all, to improve the village.

The officers of the Civic association are anxious to have everyone return these questionnaires soon, so they may send them to the University of Illinois where they will be summarized and returned with a report showing which projects and activities are most desired. Following this, an open meeting will be held to discuss the summary.

In talking with several people, it seems the idea has been received by them that they are supposed to find fault or criticize the community. This is not the thought in mind in sending out the questionnaires. Some people have no idea what to say, others believe their home town is just alright, that is the reason they have moved to Mokena from larger areas. Others believe advancement is constantly being made, slowly, but in many ways.

Mr. Charles Swanberg, president of the Civic Association, does want everyone to send in those questionnaires and if those who have not, will sit down and read them over, then jot down their ideas it will make Mr. Swanberg and the group happy and encourage them in their efforts to improve Mokena. No one needs sign their names and free postage envelopes were furnished.

ROUND UP DAY IN NEW LENOX

Wednesday, April 11 is Round Up Day at New Lenox. At this time all beginners and all children entering 5th grade and any others who might not have had the examination will have a chance to get the physical and dental examination at school.

Any child not having a record of such examination will not be permitted in school next year.

This is not a local requirement, but a state law. Because of the great amount of State aid which our district receives, we must comply, because we cannot risk the possibility of loss of state aid.

Since most of the children to be examined will be Kindergarten age the examination will be given in the new Oakview school. Dr. A. D. Miller will charge 50c for the dental examination and Dr. Janette Holt will charge \$1.00 for the physical examination. It is not required that children have this examination at this time. They may go to their own doctor but all examination records must be presented when school starts. If a child belongs to a church which disapproves of a physical examination, he must submit a statement to that effect from the proper church authority and require waiver of examination.

Harry Schmuhl Found Dead Tuesday

Harry Schmuhl, 54, of New Lenox was found dead at 7:45 o'clock Tuesday morning in the farm yard of niece and nephew's home. Mr. and Mrs. John Guindenzoph, with a bullet wound in his right temple.

Mr. Schmuhl who was born in Mokena was the son of the late William and Alvina Schmuhl. He had been working with the Guindenzophs on their farm south of New Lenox and is reported to have been in good spirits and health. A .32 caliber revolver was found near the body according to Coroner Willard Blood and Sheriff Ernest Overby, who were called to the farm for an investigation. No notes were found on his person or in his room.

Mr. Guindenzoph said Schmuhl was still breathing when he found him and called an ambulance from Manhattan. The body was removed to the Sonntag funeral home in Joliet where friends may call Wednesday afternoon and evening.

Coroner Blood stated he would set the inquest date later.

Survivors are two brothers, Albert of New Lenox, Gilbert of Frankfort; two sisters, Mrs. George Schroeder, Frankfort and Mrs. Harold Splies of Mokena.

To The Citizens Of Mokena

As the elected head of the village of Mokena, I would like to urge all citizens to fill in and return the questionnaires circulated by the Civic association to the people of Mokena. This is a means of telling your leaders what you would like to see done in your community in the next year—5 years or maybe even 10 years. The summary from the University of Illinois can be a helpful guide to the present village board as well as to future village officers. Every public official wants to give the people that which they want—use the privilege of living in a democracy to tell us your questionnaires to day.

Signed,
HAROLD W. SPIESS, President,
Village of Mokena

The daughter of the late Mr. and Mrs. Freeman Lynk, she was born in Homer township and lived here until her marriage to Edmond L. Rowley, who preceded her in death about a year ago.

PLAN TO CARRY MAIL BY TRUCKS

Tentative plans are being made by postal officials for delivering mail by truck, in place of railway, to suburbs within a 50 mile radius of Chicago, beginning about May 1.

Bids will be asked immediately for six of the nine contemplated routes, affecting 70 of the 101 suburbs.

Postal authorities estimate that this will result in a \$100,000 per year saving and also add to the promptness of mail service by doing away with gaps in train schedules.

If these plans are completed Mokena, New Lenox, Frankfort, Tinley Park and Orland Park will be in line for the new truck service.

Tinley Park post office now receives three parcel post and one first class mail delivery from Chicago, and one mail sack from the west each day. Under the truck service, they will still have good mail service as they will be having four truck deliveries each day. The trucks will deliver direct to the post office, thus doing away with all mail messengers.

At Mokena, the service by truck will not be so good. Instead of the four incoming mail deliveries daily they will have two truck deliveries, coming from Joliet. The trucks will pick up mail twice a day when they come to Mokena, and take it back to Joliet from where it will go by truck to Chicago, and its final destination. Postmaster O'Brien at Mokena has registered her complaint as to the handicap the truck service will bring to Mokena.

New Lenox will receive the same service as will Mokena. Trucks will be 30 feet long semi-trailers. It is understandable that the service may be somewhat interrupted for the first few days until the new schedule is established and understood, but many are wondering what will happen in winter when heavy snow storms block highways and interfere with travel.

Longer Life

one more reason why
John Deere is first choice
of the tractor-wise!

Just look around your community; you'll probably find many John Deere Tractors ten, fifteen, and even twenty years old still hard at work. They're truly long-lived tractors!

Extreme simplicity and strength of exclusive John Deere two-cylinder design is a big reason. Parts are fewer, larger, stronger, and able to stand the strains of heavy-duty work for a longer time. On-the-farm maintenance is easier; you keep your John Deere in better condition by being able to make many of the adjustments and do more of the servicing yourself without special tools.

Consider, too, the safeguards on a John Deere which promote long life—automatic engine lubrication which forces oil under pressure to engine parts, the automatic crankcase ventilation system, the quality workmanship, materials, and construction. You'll agree—a John Deere is hard to beat.

In addition, John Deere Tractors offer:

- OUTSTANDING ECONOMY
- GREATER DEPENDABILITY
- GREATER COMFORT
- OUTSTANDING QUALITY
- EASIER HANDLING
- EASIER MAINTENANCE
- COMPLETE INTEGRAL EQUIPMENT
- UNEXCELLED VIEW
- GREATER ADAPTABILITY

First Woman Dentist In Army Reported For Duty March 21

The first woman dentist to be commissioned in the Army Dental Corps reported for duty March 21, Major General Walter D. Love,

Chief of the Army Dental Corps announced today.

She is Dr. Helen E. Myers, of Philadelphia and Lancaster, Pennsylvania. Dr. Myers will be assigned to Fort Lee, Virginia, in the grade of captain.

Dr. Myers, the daughter of Dr. and Mrs. Wiley E. Myers, of 720 N. 40th Street, Philadelphia, shares offices with her father, who has practiced dentistry at that address since 1906. She also maintains an office in Lancaster, Pa.

Myers received the degree of Doctor of Dental Surgery from Temple University in Philadelphia in 1941.

Dr. Myers is a member of the American Dental Association, the Association of American Women Dentists, Sororist International Association, the West Philadelphia Odontographic Society, and the Lancaster Chamber of Commerce.

Legislation enacted last August authorized the appointment of female professional personnel for the first time in any Reserve Corps of the Army Medical Service. A wartime law authorizing the appointment of female physicians terminated in 1947.

As officers on active duty, women dentists appointed in the Reserve will be given the same opportunities for clinical practice and advancement now available to male officers in comparable grades. The pay, allowances, and retirement benefits which accrue to male officers also apply to women dental reservists.

of a minor outside school hours in and around a home at work usual to the home of the employer; provided such work is not in connection with or a part of the business, trade or profession of the employer."

The law referred to is known as the Child Labor Law and may be found in the Illinois Revised Statutes, Chapter 48, Sections 31.1-31.22. It is administered by the State Department of Labor.

There is a federal law preventing the movement in interstate commerce of goods manufactured under oppressive child labor conditions.

Veterans' Series to Give Flag Facts

So many questions are asked about the United States flag that the Veterans of Foreign Wars National Americanism department has prepared a series of brief articles dealing with the origin, history and etiquette of the "Stars and Stripes."

These articles sponsored by the William Martin Post 725, VFW of Mokena will be published by the News-Bulletin. They will answer such questions as "Is the Betsy Ross story true?" "How did our flag get the name 'Old Glory'?" "Who really wrote the pledge of allegiance?" "Why should the flag not be embroidered on a handkerchief or pillow?" "When should the flag be flown at night?" "When should it be displayed at half-mast?" "What are the two proper flag salutes?"

The first article of this series will be found on another page of this issue.

Why Early Diagnosis

Prevention is a more powerful weapon than treatment in the control of tuberculosis. Treatment is essential, of course, but early diagnosis is the most important factor in dealing successfully with this disease.

That is why we go looking for small trouble before great trouble finds us and overwhelms us. We urge the search for early tuberculosis among apparently healthy people. Mass X-raying is a way to search. By x-raying every adult in a community, every unknown case of tuberculosis can be found and isolated to protect the community from reinfection.

The x-ray can be relied upon to find tuberculosis of the lungs long before signs of the disease appear. X-ray is one way of knowing whether lungs are healthy or diseased.

The earlier the case of tuberculosis is found:

—the better the chance for recovery;

—the more rapid the recovery;

—the less the danger of spread; provided there is proper management of the case when it is discovered.

At least some of the deaths from tuberculosis in Will County last year might have been prevented by early diagnosis and proper early treatment.

It is each person's duty to his family and friends to get a chest x-ray soon.

"Check Your Chest," get a chest x-ray soon.

Time to Renew Your Drivers License

Secretary of State Edward J. Barrett urges Illinois motorists to "look at your drivers' licenses." He warned that the current series of drivers' licenses "will begin to expire May 2" and asked that drivers send in renewal applications 30 days ahead of the expiration date on their licenses.

All current licenses expire three years from their date of issuance. Mr. Barrett cautioned drivers against "jumping the gun" by applying too early. He said that if they would adhere to sending their applications in 30 days before the application date, it would make for an easier and more efficient operation in prompt issuance of the new series of drivers' licenses.

All questions should be answered fully and accurately. Incomplete applications will not be accepted as they slow up the procedure in issuing new licenses. The expiration date of a current license will be found at the bottom of the license card just below the driver's signature.

Secretary Barrett said he would appreciate it if the applicant include his license number which is in large-face type near the top center of the license. The Secretary requested that the applicant,

"please cooperate by pre-checking his questionnaire so that he gives all the necessary information."

States Plan For Laws to Curtail Truck Violations

Thirteen states are moving to rescue their battered roads through severe new truck weight laws.

Drastic penalties for illegal overloading of trucks, reduced size and weight limits and improved policing throughout the country were cited today by Chas. M. Hayes, president of the Chicago Motor Club, following introduction of the club-sponsored "highway buster" bills in the Illinois Senate.

"An expert Wisconsin highway committee is proposing new penalties it describes as 'tough' as we can make them" against destructive overloads, he said. "An Indiana house bill, enacted with an impressive majority, is based on a principle of suspension of the privilege to use public roads similar to that proposed in Illinois. It suspends the right to operate on Indiana highways for short periods after ten or more convictions."

"The proposed Illinois act, considered more complete, just and practical by legislative experts, would suspend for longer periods, 90 days for the first 10-suspension order, and one year in case of a subsequent order. However, this severe penalty in Illinois is to be imposed only when the truck operator is found to be a habitual violator. Proof of ten convictions by an operator or his drivers within 12 consecutive months is merely prima facie evidence that he is a habitual violator. In defense, if the truck operator is able to prove to the court that he acted in good faith and, from the nature and extent of the various overloads, the court believes the offenses were not willful and intended violations of the law, his privilege to use the highways will not be suspended."

The Illinois act now under consideration provides three methods of reaching the violator of the suspension order: 1. Fine and imprisonment; 2. Punishment by the court for contempt; 3. Forfeiture and sale of a vehicle proved to be operating in violation of a suspension order.

"Just Been Thinkin' "

It is undeniably true that "April showers bring May flowers" but it doesn't help much to make us like the wet weather this month usually brings. We know too well that May will be beautiful, and we scarcely can keep our eyes fastened on the

MAID OF APRIL

How can a poet offer
His love to April's mist
When May once held him tightly
And he was warmed and kissed?

How can he love the showers
When blossoms haunt his soul,
Or search for fragrant phrases
Where muddy waters roll?

How can he sing to April
The serenade he ought,
When all he knows of heaven
Is what the Maytime brought?

Within the arms of April
His worship cannot start,
Because her youngest sister
Already has his heart!

THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

THURSDAY, APRIL 5
"I am not ashamed of the gospel of Christ: for it is the power of God unto salvation to every one that believeth; ..." (Romans 1:16.)
Read Romans 8:1-6.

What is the heart of the Gospel? I asked the group of believers gathered in our midweek service. A stalwart mother of six testified, "I think of the Gospel chiefly as a power from God which can remake us."

Then she told us what life had been like before Christ had come to her home. Her husband, a retail wine dealer, had become debauched with his own liquor. After hearing evangelical preaching, a new life for him began when he prayed that Christ might heal him. Promising to follow the Master, he gave up drinking and the wine

business (the curse of Chile) and took up the trade of the cobbler. He became a worthy citizen, a splendid father, a man of God. As his wife spoke, the radiance of her face told us, even more than her words, that the power of Christ that had saved her years before was still present in her life and home.

PRAYER

Our Father God, visit us daily with the saving power which is in Christ. We pray that our lives may be redeemed from sin and released to serve Thee and our fellow men. In the name of our Saviour who gives us joyful faith. Amen.

Thought For The Day
Since Jesus came into my heart, I have light in my soul.
Raymond Valenzuela (Chile)

NOW THAT SPRING HAS MOVED IN...

WHAT A RELIEF
From Rheumatic Muscle Pain!

Now you can get quick-action, temporary relief from local superficial pains of rheumatism, lumbago, neuritis, bursitis, sciatica, arthritis* as well as fatigue and muscular aches and pains of simple colds with the new cream—SURIN—because SURIN is based on a new application of a principle. It contains an active modern research drug—methacholine chloride, a powerful ingredient to dilate surface blood vessels when applied at the point of pain. SURIN provides double action pain relief. (1) It increases blood supply (2) allows local, relaxing agents, camphor and menthol and local analgesic to penetrate faster giving quick, temporary relief at the point of pain. In a few minutes you feel the soothing warmth from SURIN. Then follows blessed relief lasting 1 to 3 or more hours. No internal dosing—use SURIN locally. Not an ordinary rub ointment or liniment. SURIN has a new ointment base, creamy-white, smooth. Easy to apply. Will not stain washable fabrics. Quickly washes off in warm water. Money back at your druggist if not satisfied!

"For All and That's New and Beauty Too"

"IT'S YOUR MONEY"

You could throw it out the window—
You could light a fire with it—
You could buy a T. V. set without knowing a lot of important factors.
YOUR T. V. SET IS ONLY AS GOOD AS THE DEALER YOU BUY IT FROM
Just imagine inviting a very good friend over for the week end and then have your set fail to operate.
So you call the nearest service shop. The girl at the phone inquires as to whether you purchased your set from this store. You say no. Then she says, "Sorry, but we have to take care of our customers first and won't be able to get to you before next week."

You don't have to go 40 miles for a DISCOUNT if that's all you're interested in. Anyone who ISN'T INTERESTED IN SERVICE or having his dealer TAKE ANY RESPONSIBILITY can buy that way right in your own backyard.

If you're interested in television for your home, you naturally want the best money can buy plus someone who will give you PROMPT SERVICE and feel a certain RESPONSIBILITY TOWARD YOU.

A demonstration in our store won't cost you a penny, but it CAN mean assuring you complete satisfaction for your television dollar. So stop in and let us get better acquainted.

If you can't come in during business hours, why not call us and make an appointment for a DEMONSTRATION at the store after hours or at your home. THIS COSTS YOU NOTHING.
